Strategic Partnership Concept: PRESSURE x DUNKIN' x USO

May 2026

Film Release Date: May 29, 2026
Proposed Activation Window: Entire month of May
Anchor Date: Memorial Day, Monday, May 25, 2026

Creative Concept

In the days and hours leading up to D-Day, service members faced extraordinary pressure and found steadiness in the simplest ways. Through USO canteens and clubs across Europe, the USO offered coffee, food (donuts), conversation, and a small but powerful reminder of home during the most uncertain moments before history changed.

This activation brings that history forward through Dunkin', using coffee and donuts as a symbolic throughline from WWII to today. By pairing PRESSURE's emotional core with Dunkin's everyday ritual, the campaign connects the film's story to the modern service member experience – highlighting how the USO continues to show up in moments of pressure, then and now. The result is a tangible, accessible way for the public to engage with the film's themes while honoring those who serve.
